ABOUT ME

As a fresh graduate in architecture, I am driven by a passion to explore architecture in a new way. Equipped with a strong academic background and a creative mindset, I am eager to contribute my fresh ideas and technical skills to a Company that values creativity and excellence. I am excited to embark on my professional journey, grow and learn as an architect while making a positive impact on the built environment.

PROJECTS

DAIRY FARM

2015

📍 *Woldia city*

Letter of recommendation

It is pleasure to write a letter of recommendation for Mr.Kidus Mekonnen....

I have consulted him for five consecutive year, where I thought him any **Architectural design** and **other courses** under the department of architecture. Through my observation I would like to say that he is attentive, studious, and articulate. He always have a positive attitude towards study and he is hard working student. His project have been neat and precise to the points. When I given a task he is his able to complete it within the stipulated period.

He has never given one an opportunity to rebuke his for anything. he is always attentive to what ever has been taught in the class. he is always well prepared with his project and course work. He had presented a very good seminar during his final semester thesis project as a BSc student.

He presented it with confidence and in a lucid manner. His proficiency in her subjects and English shows that he has the potential to be a good expert and practical worker. He also had a very good knowledge in graphical skill in addition to the scientific way . I have a strong opinion that he has incorporated the right aptitude to do well in graduate studies and hence strongly recommended him for Architectural Design and Construction job in related to architectural work.

Thank you

With Regards
